Tribute Wall

TP

“ I first meet Dave when I was 10 years old +/- . We were friends since then until now. Oh God, the stories I could tell ! A lot of adventures. Swimming in the Delaware River. BB gun fights. Swimming in Hoopes Reservoir. Hitch hiking to the 'Valley'. The day Dave got shot when we were hitching from the 'Valley' back home. Working on cars and swapping engines at the bottom of Wiltshire Road. Finally getting his Nova deuce coupe running. Racing on I-495 before it was opened. Going to Virginia Beach the week after school let out and going to Virginia Beach on a whim. Friday or Saturday night around midnight and someone would say ' lets drive to VA Beach'. And so much more.

Above all else Dave was a good friend. Someone you could rely on. If you were friends, he had your back.

A lot / most people know me by my nickname "Deek". Dave is the one that gave me that moniker.

He had moved down south and we went different ways, but I always considered him a friend. When he did come north, we'd get together. He was always good for a new story.

My world has gotten smaller, losing another close friend. I'll miss you Dave !
