“ I met gary back in 2006 and ever . Since then gary became my best friend in the whole world. I am very thankful and blessed to. Had you in my life as my best friend. He was someone I could have always call . And talk to about anything in life. And he always kept a smile on my faces. He had a smile that will Brighten up the room when walking in. He was always full of life . He always loved talking about his kids , work and his family. I'm always going to remember the days we had together . When you, cliché, dominique and I. Used to always hang out and spend time together . And be on the phone for hours laughing and talking to each . I am truly going to miss you so much. Well this is not goodbye because I know I will see you again one day. So I would say see you later. I love you and miss you. Love always your best friend forever Tay harris
