“ Herman Lee Newton will be sadly missed. We grow up together in the 31th street area. we was all as brothers during that time. No one could mess with one are they would have a problem with us all. We was all apart of a gang called The CC Raccons. But it wasn't like the gangs of today we was suppose to carry knives but because we wasn't violent people we would never remember to bring it from home. So we just rode bicycles and partroled the neighborhood keeping other gangs from coming in our area starting trouble. Herman Lee Newton was a good man with a kind heart. Well those days are gone and so is Herman Lee Newton may G-D be pleased with him For now he is free of all the problem we all have to endure. It's not a sad situation it's a joyous one and we should be sad that we are left behind.
