“ I completely understand what you are going through. I lost my grandson March 6, 2016 at just 3 months. My daughter has since had a daughter, but she could never replace her brother. That was a very hurtful and painful time and it still hurts. We couldn't understand why God came for him when he had just given him to us. May God give you all strength from the loss of your beautiful baby boy. God Bless you All.
